Dear Mr Mason,

RE: Moorhouse Tiles – Planning Application

I am writing to express my strong objections to the proposed development of a DPD parcel distribution centre by Roxhill Developers at the Moorhouse Tiles site.

This new distribution centre, which would deliver an initial 25,000 parcels a day requiring an additional 800 extra vehicle journeys a day, would result in an unacceptable increase to the volume of traffic on the A25, bringing an unreasonable pressure on our historic villages of Westerham, Brasted and Sundridge, which already suffer from narrow lanes and above average levels of pollution.

As you will be aware, a similar scheme was rejected two years ago, and this proposal offers no improvement. I would therefore urge you to oppose this development.

With all best wishes,

MICHAEL FALLON
